

Health and Safety Policy

Infinitec Group is committed to providing and maintaining a safe and healthy working environment for all workers, contractors, visitors and members of the public.

Hazards or risks to health and safety will be eliminated or minimised, as far as is reasonably practicable, so as to prevent injury, illnesses and dangerous incidents.

Infinitec Group considers safety and incident prevention to be vital to the ultimate success of the organisation's operations.

Management will meet these requirements by:

- ensuring we comply with the Work Health and Safety Act 2011, the Work Health and Safety Regulations 2011 and applicable Codes of Practice and Australian Standards as far as possible,
- providing a safe working environment and safe operating procedures for all company activities,
- developing a consultation process that involves all workers in identifying and resolving health and safety issues,
- providing workers with information, instruction, training and supervision to allow them to work safely and without risk to their health,
- providing contractors and visitors with information, instruction, training and supervision to work safely and without risk to their health.
- making safety equipment and personal protective equipment (PPE) available to our workers whenever required.

Each worker, subcontractor & visitor has the duty to:

- follow all safe work practices, procedures, instructions and rules,
- work in a manner which ensures the health and safety of themselves and others,
- Use all necessary PPE to undertake their task,
- encourage other workers to work in a healthy and safe manner,
- participate in training,
- report or rectify any unsafe conditions that come to their attention prior to continuing works.

Our goal is to have zero injuries to workers, contractors and members of the public within and around our workplace. This can only be achieved through consultation with and cooperation by all. Safety is everyone's responsibility.

SAFETY FIRST – FAMILY FIRST

INFINITEC GROUP
